

MICROSOFT SURFACE HUB:
THE ULTIMATE COLLABORATION TOOL

The Microsoft Surface Hub is a powerful team collaboration device, designed to transform the way people work together in the modern workplace by allowing them to connect and contribute fluently and actively, wherever they are in the world.

An exceptional user experience is the ultimate goal of any digital development, keeping people actively engaged and productive. Harnessing the power of Windows 10, Skype for Business, OneNote and Microsoft Office, the Surface Hub's breakthrough innovations in touch display technology delivers an outstanding user experience.

KEY BENEFITS

Brainstorm and create
Bring teams together to share and collaborate via non-intrusive technology that helps ideas flow

Get more from every meeting
Walk up and use instantly with a single tap and share content effortlessly

Large-screen apps
Customise Surface Hub as you please with amazing apps from Windows 10 and your personal devices

Seamless integration
Simple to deploy and manage remotely, the Microsoft Surface Hub integrates beautifully into the modern workplace, empowering productivity in any space

FEATURES

Microsoft Surface Hub offers advanced touch capabilities (84" or 55" screens), a natural and responsive inking experience along with Windows 10 and Microsoft Office (including Skype for Business and PowerPoint).

Microsoft Office Apps

Compatibility with Microsoft Office apps such as Word, Excel, and PowerPoint, as well as OneNote and Skype for Business

Interactive

An interactive, infinite whiteboard with sophisticated, easy-to-use collaboration tools

Windows 10

A Windows 10 experience tailored for group use, with ink and touch at its core

Personal sharing

Share any Windows application between personal devices and Surface Hub

Just as the PC revolutionized productivity for individuals, Surface Hub will transform the way groups of people work together.
