

JOB DESCRIPTION

JOB TITLE: Commissioning Engineer

REPORTING TO: Operations Manager

WORKING HOURS: 40 Hours Per Week

LOCATION: New York

An exciting opportunity has arisen for a Commissioning Engineer to join a fast growing technology company. AVMI is the UK's leading provider of Audio Visual and Video Conferencing solutions and is expanding rapidly overseas as well as developing a number of market leading innovations. The purpose of the role is to carry out testing of systems designed by AVMI prior to installation at the client's site. This is a great role that would be well suited to an experienced AV professional looking to further their career.

ROLE AND RESPONSIBILITIES

- Working with design CAD Schematics, ensuring systems are installed and working at optimum levels and to client expectations
- Fault finding systems and resolve issues associated with design and manufacture
- Conduct Factory Acceptance Testing (FAT) of systems in the manufacturing environment in line with developed test plans
- Complete Site Acceptance Testing (SAT) at client's site which includes final adjustment of system prior to handover to client
- Provide user-training to end client
- Support Project Manager in the successful delivery of all projects
- Liaise with suppliers and manufacturers to ensure technical knowledge is gained to successfully deliver projects

SKILLS REQUIRED

- Excellent technical knowledge of AV & VC equipment from all major brands.
- An up-to-date understanding of the AV marketplace including products and trends.
- Excellent verbal and written communication skills
- Excellent problem solving and troubleshooting skills
- Excellent organisational skills and the ability to work on multiple projects
- Ability to understand project schedule and plans
- Ability to prioritise and work under pressure is essential
- Good understanding of IT and networks
- Good understanding of Microsoft Office including Excel and Word
- CAD / Visio experience for the production of detailed schematic to company standards
- Manual handling tasks will be required when necessary for moving equipment

ABOUT AVMI

AVMI provides services to leading organisations in financial services, legal, professional services, retail, defence, government, health and education sectors.

AVMI has focussed its business strategy on providing 'trusted advisor' life-cycle services to clients with a significant portion of growth coming from international business.

AVMI has recently secured a place, for the second year running, in the Sunday Times International Track 200. This international growth has been enabled by AVMI's award winning Global Enterprise Framework of services, helping its multi-site clients to drive consistency and efficiency into their audio visual and collaboration facilities and services across all locations.

Having opened operations outside of the UK in Hong Kong, New York and Dublin, AVMI is planning to secure additional international locations in support of its clients' businesses.
